Ask about volume discounts with the standard sized Cage RACS.

Prices effective March 28, 2013, and subject to change without notice. Shipping and Handling not included in the above pricing.

We are available from 8:00 a.m. until 4:30 p.m. Central Time to provide pricing information and to answer any questions you might have about our products.

ATTENTION! We have had at least twelve reports over the last fifteen years of large dogs (shepherds, collies, retrievers, etc.) dropping their tongues through the mesh while under general anesthesia. Serious injury may result if the tongue swells and becomes stuck in the mesh. Personnel must be alerted to this danger and instructed to monitor patients until they become conscious and are able to hold their heads up.
